KAWUMA LATIIF

Data Analyst | Software Developer | Network Engineer | Computer Engineer

Email: kawumalatiif5@gmail.com | Phone: +256 701010285 | Address: Kibuli, Kampala, Uganda

PERSONAL PROFILE

Electronics and Computer Engineer with a strong multidisciplinary background spanning software development, network operations, IT support, systems administration, data analysis, business technology, embedded systems, GIS, and cybersecurity.

Experienced in developing software solutions, troubleshooting enterprise network infrastructure, supporting IT operations, automating data and geospatial workflows, and collaborating with cross-functional teams.

CORE COMPETENCIES

-Software Development -Network Operations -NOC Support -IT Support and Systems Administration -Database Management -Data Analysis and Processing -Business Technology Solutions -Business Process Automation -API Integration -GIS and Geospatial Analysis -Machine Learning and Artificial Intelligence -Cybersecurity Fundamentals -Cloud Computing and DevOps -Technical Documentation - Digital Transformation

EDUCATIONAL QUALIFICATIONS

Bachelor of Engineering in Electronics and Computer Engineering (First Class Honors)
Soroti University | 2022 - 2025

Uganda Advanced Certificate of Education
Kibuli Secondary School | 2018-2021

Uganda Advanced Certificate of Education
Kibuli Secondary School | 2015-2021

PROFESSIONAL EXPERIENCE

Support Engineer - Network Operations Centre ***December 2025 – Present***
Soliton Telmec, Uganda

- Diagnose, troubleshoot, and resolve network incidents affecting enterprise telecommunications and infrastructure networks.
- Support network operations involving CSquared, ZTE, and NITA infrastructure.
- Monitor and track network incidents to ensure timely escalation and resolution.

Software Engineer - Electricity Sharing Project ***November 2025 – July 2026***
Soroti University, Uganda

- Developed a credit-based electricity access system designed to support smart energy users and improve electricity distribution efficiency.
- Contributed to the design and of software components for the electricity-sharing platform.
- Worked with technical and multidisciplinary teams to develop scalable and user-centred solutions.

Research Assistant – 2025 (Second Edition) ***May 2025- July 2025***
ABC BlendEd Course, Uganda/Nigeria/Mozambique

- Collaborated with a multinational team to develop a land suitability analysis solution for oil palm and cassava production for Chelsea Agric in Anambra State, Nigeria.
- Used Python scripts to automate and optimise geospatial analysis procedures.
- Designed and developed a project website using HTML, CSS, and JavaScript**.**

IT Intern – Commercial Department ***June 2024 - August 2024***
National Social Security Fund (NSSF), Uganda

- Supported day-to-day IT operations within the Commercial Department.
- Assisted with data management, dataset preparation, and data analysis.
- Collaborated with multiple departments to improve internal workflows and operational efficiency.

General Manager ***(Seasonal)*** ***May2021–August2024***
Bulo Coffee Factory, Uganda

- Managed day-to-day operations of a coffee milling facility during school and university breaks.
- Supervised production activities and ensured smooth operation of the milling process.
- Coordinated workflows and operational activities to improve efficiency.

TECHNICAL SKILLS

- Programming and Software Development: Python, Java, C, C++, MATLAB, PHP, JavaScript
- Web and Application Development: Django, React, Angular, Typescript, Bootstrap, Tailwind CSS
- Databases: MySQL, PostgreSQL, Database design and management
- Networking and Systems: TCP/IP, Network troubleshooting, Switching, (NOC) operations
- Data analysis: STATA, Power BI, Anaconda, Data processing, Dataset management
- Machine Learning: Supervised learning, Unsupervised learning, Convolutional Neural Networks
- Cybersecurity: Authentication, Access control, Vulnerability assessment
- Cloud and DevOps: Git, Docker, Linux, API integration

SELECTED PROJECTS

- **Credit-Based Electricity Access System**: Developed a software-based credit electricity access system for smart energy users, applying software and computer engineering concepts to address energy distribution and access challenges.
- **Sickle Cell Detection AI Model:** Developed an artificial intelligence model using Convolutional Neural Networks (CNNs) for sickle cell detection as an academic machine-learning project.
- **Land Suitability Analysis for Oil Palm and Cassava**: Developed a GIS-based land suitability analysis solution using ArcGIS/QGIS and Python to assess agricultural suitability for oil palm and cassava production and a responsive project website
- **Food Ordering Website**: Developed a web-based food ordering system using HTML, CSS, PHP, and database technologies.
- **Hotel Management System**: Developed a hotel management system using the C programming language, implementing programming concepts for managing hotel-related operations.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Soft Skills Certificate of Completion: Brighter Monday Uganda, 2026

Artificial Intelligence Certificate of Completion: Otic Foundation, 2025

Cyber Security Certificate of Completion: Otic Foundation, 2025

Python Programming Certificate of Completion: Africa Agility Micro Credential Course, 2025

Erasmus+ African BlendED Course Certificate of Completion, 2025

Certificate of Internship / Best Intern: National Social Security Fund (NSSF), 2024

Diploma of Participation: Association of Uganda University Sports, Uganda Christian University, 2023

HONOURS AND AWARDS

- Uganda Communications Commission (UCC) 2026 research grant winner for the project *Credit-Based Electricity Access System*
- Best Team: African BlendED Course Project, 2025
- Best Intern: National Social Security Fund (NSSF), 2024

REFEREES

Dr. Musa Satya Chemisto, H.O.D, Lecturer, School of Engineering and Technology, Soroti University

- Tel: +256 754949787, Email: mchemisto@sun.ac.ug | chemsat@gmail.com

Dr. Ann Move Oguti, Co-PI, Supervisor, Electricity Sharing Project, Soroti University (SUNRIF 2025)

- Tel: +256 766039814, Email: amoguti@sun.ac.ug

Dr. Hellen Aluku, Coordinator, African BlendEd Course (2025) at Soroti University

- Tel: +256 773501693, Email: haluku@sun.ac.ug
